

BCom in Law - First Graduating Cohort at SBS!

By Christo Swart (Head of School: Law)

It was a very special occasion for the School of Law, when the first cohort of Bachelor of Commerce in Law students were conferred with their degrees at the Spring Graduation of Southern Business School on 11 September 2019.

The vision of the dedicated personnel of the School of Law entails - inter alia - that their students - in future - will play a significant role to enhance ethical practises of law principles in the South African environment and be role models to the next generation.

Professor Anton Kok from the University of Pretoria - a highly respected colleague and friend of the School of Law - delivered the keynote address at the graduation. He made an urgent call to graduates to be agents of change and to implement social justice in all aspects of life.
